

Decisions

- Unit size

Unit size

- What should the unit size be? Initial thought was 20ft, to be able to have a dishwasher, washing machine, drier and space for 'toys'. But maybe (due to the possibility of a dual-layered bed/sitting area, this could be less? Maybe a 15/16ft unit?
- It can be 'extended' through the use of a 'unit' on the back, connected to the ISO container:
